

# PLZ PALLETIZER

Video

*PLZ with rotating collet  
with direct pick up of trays  
from the stacker; right version.*

*Denester and pallet positioner  
with double chain.*

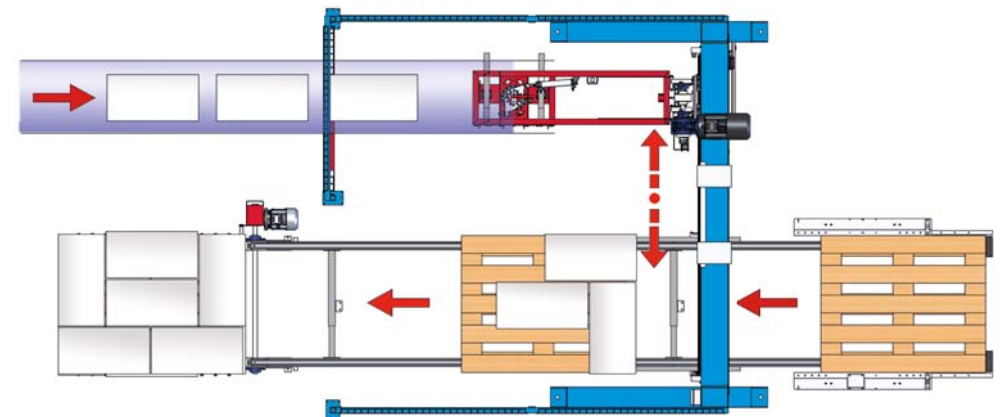

The **rotating collect** enables to place the trays on the pallet **in order to optimize space**.

## MACHINE DESCRIPTION

Palletizer for trays or crates, fast and easy to program.

TECHNICAL DATA	M.U.	PLZ
HOURLY PRODUCTION	cycle/hour	240
HEIGHT TO PALLETIZE (max)	mm	2000
TRAYS DIMENSIONS (max)	mm	700x500
PALLET DIMENSIONS (max)	mm	1300x1300
INSTALLED POWER	kW	6
AIR CONSUMPTION (max)	l/min	55

## TECHNICAL SPECIFICATIONS

- Easy programming for the operator with 5,7" colour touch-screen panel.
- Automatic lubrication with tank on linear bearings.
- Machine weight: according to its composition.
- Available in right and left solutions.

Palletizer for trays: collet on **loading phase**.

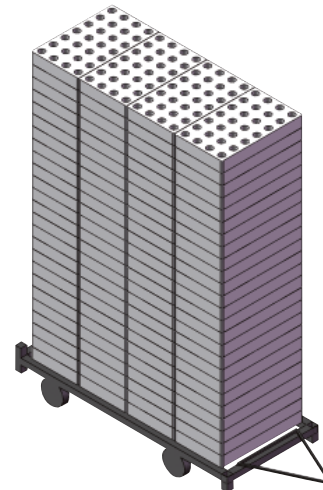

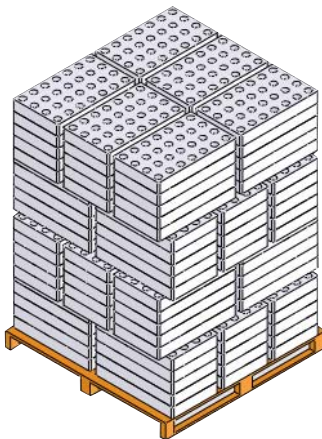

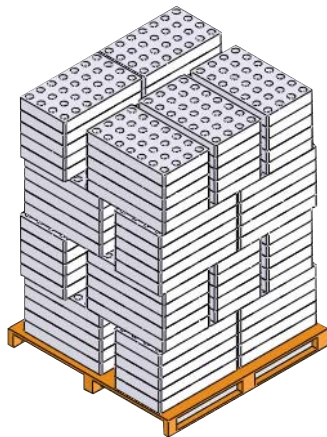

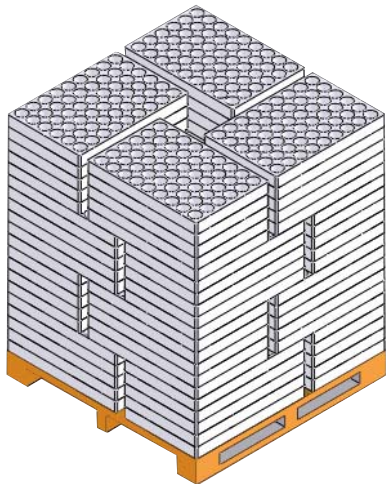

Unloading phase: **trays stacked on the pallet**.

Palletizer for **crates with blocks**: collet on **unloading phase**.

EXAMPLE OF TRAYS DISPOSITIONS ON PALLET AND ON CC TROLLEYS
